Copy 4 of 7

31 AUG 1978

MEMORANDUM FOR: Director of Central Intelligence
VIA: Deputy Director for Administration
FROM: Robert W. Gambino
Director of Security
SUBJECT: Kampiles, William P.

1. Action Requested: None; for information only.
2. Background: Attached as Tab A is a profile of Kampiles as seen by the Office of Security at the time of his entrance on duty through termination. Tab B is a memorandum from the Director of the Operations Center focusing on the scope of documents accessible to Watch Officers, control procedures, remedial action being taken to limit access to those possessing a true need-to-know, and a statement as to the problem of ascertaining through inventory whether other documents are missing.

As you are aware, the indictment handed down on 17 August charged Kampiles with six (6) counts of espionage and theft of Government documents. Bail is currently set at \$500,000 and Kampiles remains in jail pending arraignment on 5 September 1978. At arraignment a bail reduction motion will be heard. The presiding judge has indicated that he would consider Kampiles' former access to classified information in determining the amount of bail. The Department of Justice is interested in keeping bail as high as possible--at least \$250,000. Federal Bureau of Investigation representatives have been briefed in general terms on the type information contained in the Operations Center to which Kampiles would have had access and will be prepared to testify thereto. In addition, Mr. Vincent Heyman, Director of the Operations Center, will be standing by in the event personal testimony is required.

| 1. | DCI [redacted] Headquarters | | | Please note paragraph 5 of Mr. Heyman's memorandum concerning TS documents not accounted for. This statement is technically correct since it reflects the approximate number of TS collateral documents unreconciled when the TS control function was changed from hard copy to an automated control. This is a subject which is very complicated and which should be dealt with separately from the issue at hand. I will forward you a memorandum which sets forth in detail our TS control system and the number of documents under control and "unaccounted for." <div style="background-color: black; width: 200px; height: 40px; margin: 10px 0;"></div> Robert W.
